G. 9

A cross-sectional view of a substrate assembly. The assembly consists of multiple layers. The top layer is labeled 101. Below it is a layer with diagonal hatching, labeled 105. Underneath that is a layer with horizontal hatching, labeled 106. The bottom layer is labeled 107 and has a cross-hatch pattern. A central protrusion, labeled 114, extends upwards from the assembly. The top surface of the protrusion is labeled 112, and its side surface is labeled 113. The base of the protrusion is labeled 114. The top surface of the substrate assembly is labeled 1140.

G. 10

A cross-sectional view of a device assembly. A hand is pointing to a component labeled 10. Other labels include 112, 113, 114, 1140, 105, 106, and 107. The assembly consists of multiple layers with different hatching patterns.
